

Housing Authority of Murray Resident Notice – Safety Advisory

The Housing Authority of Murray has recently installed caution fencing along the eroded area behind the south side of Nash Drive. Residents and visitors are advised to avoid this area.

Due to erosion, there are significant drop-offs along the path, reaching approximately three (3) feet deep in some locations. For your safety, please do not cross or enter beyond the caution fencing.

We are currently working with the City of Murray to address and correct this issue. Until repairs are completed, we ask that everyone stay away from the affected area.

The caution fencing has been installed for your protection. Any person who crosses the safety fence and enters the restricted area does so at their own risk. The Housing Authority of Murray will not be responsible for injuries resulting from failure to observe these safety warnings.

Thank you for your cooperation and assistance in helping keep our community safe.
